The screenshot displays the ChemLab software interface for an acid-base titration simulation. The main window is titled "ChemLab - (untitled) - Acid-Base Titration" and features a menu bar (File, Edit, Equipment, Chemicals, Procedures, Arrange, Options, Help) and a toolbar with various laboratory equipment icons. A central panel shows a virtual laboratory setup with a burette containing a pink liquid being added to an Erlenmeyer flask containing a colorless liquid. A pH meter is positioned near the flask, displaying a reading of 12.34. To the left, a "Play Demonstration - acid_base.dd" window is open, showing a list of actions such as "Increase Titration Rate", "Display Message: Equivalence point is reached", and "Start Titration". Below this list are control buttons for "Play", "Pause", "Rewind", "Edit", "Delete", "Help", and "Cancel". A note at the bottom of this window reads: "Note: Press Play to start running demo." Below the note, text explains: "acidic solution and pH > 7 signifies a basic solution. An acid-base reaction is one in which H⁺ ion are transferred from an acid to a base." To the right, a "Titration Data" window displays a graph of pH versus "ml of titrant". The y-axis ranges from 0 to 14, and the x-axis ranges from 0 to 45. The graph shows a typical sigmoidal titration curve with a sharp vertical rise between 30 and 35 ml of titrant, indicating the equivalence point.

Model Science Software develops simulation software for education, including our chemistry lab simulation software, known as Model ChemLab, which can be used for distance learning over the Internet.. The Lab Manual / Workbook is designed to complement Virtual ChemLab Virtual ChemLab is a set of realistic and sophisticated simulations covering general and organic chemistry laboratories.

In these laboratories, students are put into a virtual environment where they are free to make the choices and decisions that they would confront in an actual laboratory setting and, in turn, experience the resulting consequences. [Scan Never Completes](#)
